Taos Ski Valley opened December 14 with 70" of snow! The skiing was FANTASTIC... best I've ever seen this time of year. An important announcement was made which will likely have a favorable effect on the local economy here in Taos: Taos Ski Valley will be open to snowboarders beginning March 19, 2008!! (for more info log on [www.ridetaos.org](http://www.ridetaos.org) )

This could have a positive impact on the local real estate market as well. Many people who consider buying second homes near a ski resort have by-passed Taos because family members and friends prefer to snowboard. This will no longer be an issue!

I expect to see more buyers interested in Taos Ski Valley property when the word gets out. So...if you were considering buying property in Taos but decided not to because of the ban on snowboarding, NOW may be your chance. There are some fabulous deals to be had right now in the Taos real estate market. There is a wide selection of homes in Taos, condos in Taos and condos in the Taos Ski Valley, as well as spectacular Taos land for sale.

This may also prove to increase the value of your Taos property. So, if you are considering putting your Taos home, Taos land, or Taos condo on the market, NOW may be the time!
