Thinking of buying property in Angel Fire? Great things are happening up here . . . the public improvement district has completed an important step to bring infrastructure to 800 unimproved lots in the village. Next spring should be the completion of an intense effort to bring town utilities to these beautiful lots, making building your dream home up here in Angel Fire easier than ever.

Our beautiful village of Angel Fire is looking prettier than ever . . . the intense colors of fall are at their peak, the air is cool, and our first snow is just around the corner. In fact, sitting here in my office this Sunday afternoon writing this update, it's almost cold enough to crank up a fire in the fireplace.

I hope you'll take a trip out here this fall or winter. Even if you don't ski, come up and experience the snow, drive to Taos for gallery hopping for a day, have a great meal in one of our fine restaurants. You owe it to yourself to experience Angel Fire in every season's glory. And come see us when you know you just have to have a place here. We'll help you find that perfect Angel Fire home or lot!

Cheers!
